Extraordinary Entries at CAPCON 2005

Best A/C of Show- Michel Laperriere

CAPCON 2005 was held on September 10, at the Nepean Sports Complex, kicking off the fall model show season in southern Ontario. Hosted by IPMS Ottawa, the show also had the added honour of being the concurrent venue for Tamiya-Con Canada.

Attracting participants from as far east as New Brunswick, and as far west Calgary, as well as a number of folks from the U.S, the quality and quantity of the models on display was nothing short of exceptional. So too was the organization of the show, which featured everything from a silent auction, to “loot bags” for the entrants, and a fantastic vendor area. Representatives from Fine Scale Modeller were also in attendance, snapping pictures for future publications.

Several members of de Havilland Scale Modellers, including Sandy McRorie, Derek Pennington, and Wayne Bowman participated in the show, bringing home a third place, a best out of the box, and a first place award respectively. Congratulations to our members and to IPMS Ottawa for a fine show.

Some more pictures from the event can be seen in the “From the Field” section, and the show results can be seen at IPMS Ottawa’s website at www.ipmsottawa.com.

On The Table

The proximity of Family Day, and September's meeting, meant that everyone in attendance could see a number of the subjects brought in by members in support of our Family Day exhibit, and what a treat it was.

Terry Cooper definitely wins the quantity award, with a fine collection of figures. First off is a terrific 120mm British 9th Lancer Officer, circa 1820, which has graced a number of the club's advertisements and notices. Terry did this one OOB, painting it with enamels

Next was **Terry's** great 5th century Greek Hoplite, a 54mm figure from Rose Miniatures.

Also in 54 mm was **Terry's** French Hussar, 1st regiment officer, circa 1805-1813. This was a Historexkit, combined with a horse from Airfix, all of which were painted with enamels

Terry also showed us his small diorama portraying an officer and trumpeter of the Hussards de la Mort, circa 1793, created using 54 mm figures from Historex and Staddon Miniatures. Terry also did some very nice scratchbuilding and detailing of the structures included in this diorama

On the Table cont'd

Here we have **Terry's** French Cavalry officer circa 1794-1803. This was an "OOB" effort from Historex, again painted with enamels

Finally , we move the clock back in time a bit more with **Terry's** 54mm Ralph Lord Basset figure. This was a Traditions Miniature offering, painted with enamels. Nice Pig on his head, don't ya think?!?!

Its always nice to see some automotive subjects on the table, and this Protar 1/12 Ferrari126C2 from the workbench of **Mike Marino**, was a real treat. Painting it with a mixture of Testors enamels and Tamiya acrylics, Mike completed the kit in the markings of the car that Canadian Gilles Villeneuve lost his life in while qualifying for the Belgium Grand Prix in May of 1982.

Chairman Fraser brought in a very well done and unusual Soviet subject, in the form of a 1/144 Beriev BR-12 Sea Gull. Iain whittled this from the limited run, injection moulded kit from Masterkit Models. Iain filled all of the kits panel lines (otherwise known as "trenches"), and scratch built the engine, torpedoes, MAD boom and undercarriage.

On the Table cont'd

Rounding out our On the Table display was another fine display of civil airliners from **Mr. Pennington**. First was Derek's 1/72 C-46 Commando, done in Canadian Pacific livery.

Next was **Derek's** unusual 1/72 Dart Dakota. This one was finished in British European Airways colours.

Finally, and most dear to our hearts, was **Derek's** magnificently done 1/48 DHC-3 Otter. This beauty was finished in the livery of Points North Air, and was a very nice addition to our Family Day exhibit.

At the Next Meeting... (Wed Oct 12/05)

- We'll have a report on our first club road trip
- **Terry Cooper** will give us a narrative with accompanying slide show from his trip to Pearl Harbour.
- We'll mark the end of the clubs 2nd year in existence with some member recognition ceremonies.
- Last meeting before the revised 2005 club contest due date of November 9th.

Toronto Site Family Day

Sept. 10/05

DHSMC Exhibit

Our Family Day exhibit was a great success with over 40 models on display from club members, generating much interest from those in attendance. Many thanks to Bill, Bill's wife Carolyn, Lino, Terry, and Joe for overseeing the exhibit during the event.

Just a minute!!

Here are the minutes from the last meeting:

- We gave the final details of the club road trip to CWH.
- Wayne gave a quick report on the CAPCON show in Ottawa.
- The executive expressed its thanks to all of those who helped make our Family Day exhibit a great success.
- It was announced that thanks to our CIO Lino Campoli, our new external website www.dhscale.com is up and running.
- After a show of hands, it was decided to move due date for the Club Build Contest by one month to the November meeting to give a few stragglers (your friendly neighbourhood Editor included) a bit of extra time to complete their projects.
- Needless to say, Lino won the raffle **AGAIN!!!** This time it was a 1/72 Revell SR-71 model graciously donated by **Mr. Muzaffar Saeed** and an Aerofax book on the same subject.

Surf's up

Here are some links to a couple of interesting websites:

www.canmilair.com

- Contains very helpful information on Canadian airforce markings over the years

<http://www.pbase.com/klin/cias2005&page=all>

- Some terrific pictures of the performers at the 2005 CNE airshow

http://www.philsaeronauticalstuff.com/f_21a/f-21a.html

- Excellent IAI Kfir C2 walkaround.

<http://www.kevin-bates.com/aviation.htm>

- Excellent photo reference site of various A/C types.

Seen on the Shelf

The following are some new releases that have been spotted at local retailers:

<u>Subject</u>	<u>Scale</u>	<u>Manufact'r</u>
P-40B	1/24	Vintage Fighters
F-16CJ	1/32	Academy
Sopwith Camel	1/32	Hobbycraft
SB2U-1 Vindicator	1/48	Accurate Miniatures

Derek Pennington's Comet

Sandy McRorie's Staghound – 3rd place

Wayne Bowman's M48A3 – 1st place

Tools & Tips - Mottling

Award winning modeller and chief protagonist of the Ajax Model Show, Mr. Bernie Hengst, dropped by our September meeting (thanks to Derek's invitation) to show us his techniques for applying "mottled" camouflage patterns.

Bernie's technique uses pastels for applying the mottled pattern rather than the more traditional route of using an airbrush. Some of the benefits of using pastels are:

- Pastels can be easily removed and you can try it again if you aren't happy with the first attempt
- Pastels are generally more "controllable"
- Less prep required (eg. no masking etc).

Bernie's Bf109E done with his mottling technique

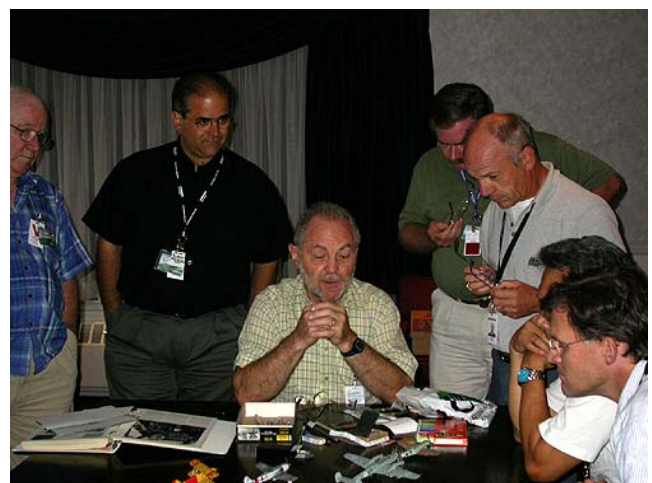

Bernie recommended the use of the following tools and materials for use with this technique:

- Artist "stumps"
- Chalk pastels
- Artist's pencil crayons (as an alternate to pastels)
- "cut down" paint brushes

Remember, that these products are not permanent and subject to inadvertent removal until sealed with an overcoat of clear.

Bernie's beautiful Hawker Fury

Bernie showing us how its done
